

# ESPORTS

AN E-EXPERIENCE LIKE NO OTHER!

**ESPORTS** has been one of our product heroes in recent times – delivering new customers and profitable growth across our partner network. In particular, sport-based cyber games have been the most popular with our partners’ customers.

At Digitain, we seek to continually improve our offering, so we’re delighted to add a unique **ESPORTS** sports product to our partner portfolio – **CYBER MASTERS**.

**THE CYBER MASTERS LEAGUE** significantly differs from all other products that you can find in today’s online gaming market.

We have focused on enhancing our offering in two of the most popular and demanded Esports; **CYBER FOOTBALL AND CYBER BASKETBALL**, both including a comprehensive variety of betting opportunities and a lightning-fast results feed.

# HIGHLIGHTS

ALL GAMES  
ARE LICENSED  
AND UPDATED
