OUR HIGHLIGHTS

The new Live Score comes with E-Sports and the First in the world Table Football, in addition to all the Sports we've been already providing.

- Our Football alone includes 150+ countries and about 1,000+ local and international championships.
- Over 3000+ championships/tournaments.
- Table, Stats, H2H are available for all sports and games.
- 150+ championships of Football also offer Lineups, Stats, Formations, with Match Event Center updates.
- The odds on the Live Score page are deep-linked with the Sportsbook, allowing a quick and smooth customer journey from Live Score/Stats to Betslip.
- The overall number of monthly matches is 70,000+.
- A special added functionality to review the video recording of the goals in matches of top leagues, which appear on the website maximum within 2 minutes after the goal.
- Our multi-lingual system enables effortlessly adding on demand any desired language to the already installed list of the following 12 languages: English, Russian, Spanish, German, Turkish, Chinese, Persian, Serbian, Croatian, Bosnian, Portuguese and Armenian.

LIVE SCORE
and Statistics

IN ADDITION TO THE ABOVE-MENTIONED HIGHLIGHTS OUR NEW LIVE SCORE HAS BEEN ENRICHED WITH:

- The number of championships and games, which have increased by about 50% almost in all Sports, as compared to the previous version.
- Notifications on championships and events taking place during the games. By clicking on the bell next to the game, get a notification on any change of the game's status (both in desktop and mobile version).
- A new column showing which team will play in the international tournaments and which will be left out of the league.
- Even more detailed information, with complete playlists and detailed statistics about the teams. All the countries and tournaments are not only in the games of the day, but also have their own separate pages, where players can see both the upcoming games and the previous ones.
- All-in-one window Match Center, with probable lineups, injuries, h2h, formations, suspended players, names of referees and stadium, detailed statistics, and much more of what players need to know before, during and after the game.

SPORTS DATA AND STATS

1

We offer detailed information about the list of players, weather forecasts, statistics, pundits, and on-field conditions, all the major tournament data and detailed information about the players.

2

We have a broad range of real-time data tools. Their flexible design provides easy integration to save both time and money and allows operators to create their own branded solutions with all available data components.

3

These can be arranged in your style and brand design, as a single system has been developed for all skins, where by changing only 3 colors and giving us a few logos and the background, you'll get your new skin and any number of URLs for the given skin within only 24 hours
